Product Highlights

- Designed for urban & industrial last-mile delivery
- High load capacity, low operating cost
- Smart control system with safety features
- Ideal for logistics, factories, warehouses & municipalities

Key Specifications

Performance

- Max speed: 50km/h
- Mileage: 60~80km
- Motor: 1800w
- Controller: 30-Tube
- Battery: 72V 58Ah
- Charging Time: 6~8h

Structure and Dimensions

- Vehicle dimension: 3300 x 1299 x 1460mm
- Carriage: 1800 x 1300mm
- Max Load: 1200kg

Functions

- Low medium high speed
- Forward reverse
- Climbing mode

Intelligent

- LED meter cluster
- Blue tooth connection
- Anti-rollback System
- Integrated control handle

Warranty

- Frame Structure: 8 Years
- Motor/Controller: 1 Years
- Lead-Acid Battery: 1 Year
- Lithium Optional

Product Highlights

- Designed for last-mile delivery in urban, rural & suburban areas
- High load capacity + auto-grade durability + smart safety features
- Ideal for individual merchants, rural short-haul & urban logistics
- Cost-effective & low operating cost, perfect for entrepreneurs

Key Specifications

Performance

- Max speed: 50km/h
- Mileage: 60~80km
- Motor: 1200w
- Controller: 24-Tube
- Battery: 60V 52Ah
- Charging Time: 6~8h

Structure and Dimensions

- Vehicle dimension: 2910 x 1070 x 1365mm
- Carriage: 1500 x 1000mm
- Max Load: 500kg

Functions

- Low medium high speed
- Forward reverse
- Climbing mode
- Anti-rollback system

Intelligent

- LED meter cluster
- Blue tooth connection
- USB 2.0 Fast Charging Port (5V/2A)
- High-Fidelity Audio System
- Intelligent Integrated Handle
